## **Chairman of Orthopedic Surgery**

### **Frank Liporace, M.D.**

Dr. Frank Liporace was born and raised in the New York City area.

He attended the State University of New York at Binghamton for his undergraduate degree and then continued on to New York Medical College for his medical degree.

After this, he completed the Orthopaedic Surgery Residency Program at New York University /Hospital for Joint Diseases.

He then completed an Orthopaedic Traumatology Fellowship at Tampa General Hospital under the tutelage of Dr. Roy Sanders and the Florida Orthopaedic Institute's Orthopaedic Trauma and Reconstructive Service.

His interests include pelvic and acetabular surgery, complex orthopaedic trauma reconstruction, hip and knee reconstruction, and treating complications associated with orthopaedic trauma.

For the last decade he has been clinically active and teaching residents and students. He has won numerous teaching awards within his institution and nationally.

He is currently Chairman of the Department of Orthopaedic Surgery and Chief of Orthopaedic Trauma & Reconstruction at Jersey City Medical Center.

He is also Director of the Orthopaedic Institute at Jersey Medical Center. Additionally, he is the Director of Orthopaedic Trauma Research at New York University / Hospital for Joint Diseases.

Dr. Liporace has made multiple scientific presentations nationally and internationally and has over 70 publications in peer-reviewed journals and 10 chapters in orthopaedic textbooks.

He has done over 300 invited lectures pertaining to orthopaedic Trauma and Joint Reconstruction worldwide. He is currently a reviewer for the Journal of Orthopaedic Trauma as well as Clinical Orthopaedics and Related Research.

He is also the editor for the Lower Extremity section of Orthopaedic Knowledge Update 11, which is used around the world as one of the standards for information for orthopaedic surgeons.
